

NURIT 2085

Reliable All-In-One Payment Solution

The **NURIT 2085** delivers a complete payment management tool in an all-in-one package for fast, hassle-free transactions.

At the heart of the NURIT 2085 lies a fast microprocessor to rapidly serve customers while securely processing multiple payment types – such as credit, debit, cash, EBT, check verification, guarantee and truncation, prepaid cards and loyalty and gift cards.

It has an easy-to-read backlit display and a simple, menu-driven user interface fully integrated with the keypad, eliminating the need for complicated keypad overlays. Its programmable LCD soft keys and hot key shortcuts provide one-touch access to customizable functions, reports and business-specific applications, making daily operations a breeze and a cinch for new employees to learn. Plus, a high-speed, built-in, easy-load thermal printer operates quickly and quietly, eliminating the noise and ribbon problems commonly associated with impact printers.

BENEFITS AT A GLANCE

- Robust functionality for processing multiple payment options
- Simple, menu-driven interface for ease of use
- Programmable LCD soft keys and hot keys for one-touch access

NURIT 2085
